EDUCATION

State Council for Vocational Training

Diploma in Fitter

Hardoi, UP

Aug. 2021 – Jul 2023

CSJM University

Bachelor of Arts

Hardoi, UP

Aug. 2018 – May 2021

EXPERIENCE

Frontend Developer Intern — Drop X Out

Jul 2024 – Oct 2024

- Conceptualized and engineered 5+ web applications using HTML, CSS, JavaScript, and React.js, increasing user engagement by 30% on average within the 3 months.
- Customized and standardized designs with Tailwind CSS for adaptive and visually engaging layouts on multiple devices, resulting in a 30% increase in user engagement and reducing load times by 20%.
- Optimized application performance, achieving cross-browser compatibility across 5 major browsers, and diagnosing user issues which led to a 15% decrease in reported user complaints.
- Collaborated with designers and backend developers to troubleshoot and debug, successfully delivering user-friendly solutions within project timelines, contributing to a 25% improvement in project delivery speed.

PROJECTS

Jobly - A Job-Seeking App | *Vite, Supabase, Zod, Clerk*

Jul 2024 – Aug 2024

- Coded and deployed a job-seeking platform serving 50+ users in the first month, featuring real-time job search and secure authentication.
- Engineered job application tracking and profile management features, reducing manual effort by 30% for users applying to multiple positions.
- Utilized TailwindCSS to calculate and improve UI responsiveness, increasing job application submission rates by 20%.
- Validated data using Zod for schema validation, reducing form submission errors by 10%.

Hospital Management System, Admin Dashboard | *Vite, React Router, MongoDB*

June 2024 – Jul 2024

- Architected a hospital management system used by 50+ patients and 20+ doctors, improving appointment scheduling and reducing booking errors by 20%.
- Installed JWT-based authentication for secure access, reducing unauthorized access attempts by 15%.
- Integrated Cloudinary for image management, cutting image loading times by 25%.
- Computed real-time appointment updates with a sophisticated dashboard, leading to a 40% reduction in appointment scheduling errors.

ECHO VERSE Blog Application | *React, Axios, MongoDB, Node.js, Express.js*

May 2024 – June 2024

- Coded and unified a full-stack blog platform with secure user authentication and interactive blog management for 50+ users.
- Restructured the UI using TailwindCSS, resulting in a 15% increase in blog post submissions and a 20% improvement in user engagement.
- Segmented blog content with pagination and search functionality, streamlining navigation for 50+ articles.
- Estimated server performance improvements, optimizing with MongoDB, reducing API response times by 30%.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript

Frameworks, Libraries and Databases: React.js, Node.js, Express.js, MongoDB

Tools: Git, Github, Netlify, Vercel, VS Code

Others: API Integration, Testing, Cloud Services

ACHIEVEMENTS

- Career Essentials in Generative AI by Microsoft and LinkedIn (**Show credential**) Sep 2023
- What Is Generative AI? (**Show credential**) Sep 2023
